They reached there in morning and started visiting the place. It was a tough summer day. During their visit they have visited various parts of the Taj Mahal including the Tomb of Mumtaz. Towards the back side of the Taj, there was some recently completed repair work, done under the surveillance of a government contractor. In a courtyard of the site there was some special black marble stone used on the floor. This was done so that the compound can look more attractive, as due to sun rays it can shine more as compared to the ordinary marble. Maria, while walking on the same slipped and fell down. As a result she received fracture in her leg. It was contended that the marble was very smooth and slippery due to over polishing. Maria was nominated for Miss World Pageant, scheduled to be held after three and half months. But due to her injury she was unable to participate, as all her preparations were stopped. She claimed that the marble used on the floor is not proper and the working authority was negligent in its work. As it is found that in last few years the mentioned place is ignored by tourists, though which should be the main site for their visits.
